

Hello Indiana Key Club! My name is Louis Gallegos, and I am truly honored to introduce myself as your 2022 - 2023 Indiana District Governor! Firstly, I want to thank those who attended the 2022 Indiana District Leadership Convention. It was such an incredible experience for all who attended, whether attending workshops, making new friends, or just getting out of town for the weekend. Another main event at DLC is elections! At this past DLC, the District elected the Executive Board, Lt. Governors, and I to serve on the 2022 - 2023 Indiana District Board! I loved the opportunity to meet Indiana Key Clubbers from all across the District, and I hope to meet most of them again one day! A HUGE shout out to the District's Events and Planning Committee for an excellent job planning and promoting the event!

A bit of me! Currently, I am a junior at Hobart High School, and I am finishing up my term as my club's president! This year is my second year in Key Club, and I have enjoyed every bit of it! Upon joining my home's Key Club to get some service hours, I immediately fell in love with how the club operated and treated Service. After a couple of months, I joined as a board member. Soon, I was asked by my home club's sponsor and club president at the time if I would be interested in running for both a club president and LTG position! (I kind of thought they were joking at the time!) But soon enough, I was attending public speaking workshops, standing in front of my club at club elections. Then, I attended DLC 2021 and was elected the Duneland Division Lt. Governor!

I am well aware that these past couple of years were not as anyone expected. I still remember when we thought it would be a relaxing two-week break! (boy, was I wrong...) But the past two Indiana District Boards, and the organization as a whole, have proven that no matter the situation, we as Key Clubbers continue to grow, succeed, and serve our communities. A couple of my main goals this year are to establish standards for Key Clubbers Got Talent to ensure the event in the future is streamlined and to create a committee determined to social media, promotions, and reestablishing/managing the Indiana District Store. Another goal of mine is to provide more transparency with District Affairs by making meeting minutes and notes more available and promoted. My last goal is to expand upon the officer resources already offered by the District, so they're better to understand, more accessible, and can be implemented in a club at any level of activity involvement.

I firstly want to acknowledge that, yes, this year will be challenging. But the Indiana District has been through worse times in worse situations. Speaking on behalf of the Indiana District Board: I am here to say that during the 2022 - 2023 service year, the Indiana District will stay strong, prosperous, and cooperative with Indiana Key Clubs.

I hope to meet as many Indiana Key Clubbers during my term. I strongly encourage you to hop on the opportunity of attending District events! But until that time comes, please don't be afraid to reach out with comments, questions, and concerns. I am here to serve you, Indiana! :D

Yours in Service,  
Louis Gallegos
